Please follow the instructions below for ordering shirts, ALL MEASUREMENTS ARE IN INCHES

Neck measurement; Measure around the lower part of the neck, placing one finger between the tape measure and the neck.

Arm measurement; Measure from the lower part of the neck, across the shoulder, down the arm to the wrist.

Please remember that your youth are still growing and will be wearing the shirt for 3 years, order your shirts larger, your youth will grow into them.

Record all measurements for each shirt separately, if your measurement fall between 1" then go to the next 1" size up. Shirts can be ordered with long sleeves or short sleeves, see listings.

All prices shown above are from the QUARTERMASTER STORE
This will give you an idea of the shirt cost without the shipping

PRICING; The price listed is the store base price, based on the following costs.

- 1 Shirt cost
- 2 HST cost
- 3 Delivery cost to the store
- 4 **Drop shipments can be made at time of ordering, some of our suppliers have moved and we now have to pay shipping costs for shirts and some pants**

Shipping cost to you will be added to the base price, and that charge will depend on your postal code.

Shirts marked (SPECIAL ORDER) are made to order, delivery time could be up to 10 weeks This includes TALL shirts which are 2" longer in the length. Indicate this (TALL) when ordering. Make sure that you include the sleeve length for long sleeve shirt orders, the standard sleeve lengths fall between 26" for the shortest length to 40" for the longest length. Order sleeve lengths in 1" increments only. 28", 30" 32" etc. (do not use 1/2" measurements)

Remember to include the back length measurement too.

Examples; 13" neck x 32" sleeve (order shirt as **UN10XX-13 x 32**)

13" neck x 34" sleeve (order shirt as **UN10XX-13 x 34**)

Short sleeve, you need only to use the neck size when ordering. (**UN10XX -15**)

Shirts with our label will have neck measurements plus 1/2" added to that neck size as a standard shirt so a 15" neck will actually be 15.5", for both long and short sleeve shirts.

******Shirts not in stock at the factory can take up to 10 weeks for delivery.**

Once a special order has been placed it can not be cancelled.

I can give you a better idea as to the actual cost.

Price of Special made to order shirts is \$50.00 to store. If that size is available

Your cost will be that plus shipping to you.

We now carry youth size shirts in both long and short sleeve, same measurements are required as for the standard adult shirts, but for youth shirts you should measure from the neck down to below the but , just to make sure that the shirt is not too short. Below are the typical back length of youth shirts

12.5" neck shirt back length approx. 27.5"

13.5" neck shirt back length approx. 29.5"

14.5" neck shirt back length approx. 31.5"

Measuring for a Stetson / Beret

Keeping the head straight, using two fingers just above the eyebrows measure around the head including the bulge at the back of the head. This will allow the Stetson to sit properly on the head and not at an angle. List each head measurement separately then order under the Stetson order number.

Although both youth and leaders can wear either Stetson type, typically the youth would wear the less expensive Stetson.

Prices listed are based on a minimum order of 3 Stetsons

PRICING; The price listed is the store base price, based on the following costs.

- 1** Stetson cost
- 2** HST cost
- 3** Shipping to store

Shipping cost to you will be added to the base price, and that charge will depend on your postal code. Leaders can wear either Stetson type.
